Description

The Double Nasty double reed is a cornerstone of our duck call line and one of the best-selling calls of all time. It is loud, extra-raspy, and guaranteed not to stick thanks to our Spit-Tech™ toneboard design. The Spit-Tech technology allows the call to blow when wet from saliva, condensation, and even accidental dips in the water. Every Double Nasty duck call is tuned by hand and tested by our staff of dedicated duck hunters in Memphis, TN.
